

A photograph of an outdoor dining area. In the foreground, a square table with a muted green finish is surrounded by four brown metal chairs with a woven mesh back. The table and chairs are arranged in a similar pattern in the background. The setting appears to be a terrace or balcony with a grey tiled floor and a dark railing. The lighting is bright, suggesting daytime.

# ALBERT RUSSO CASE STUDY

## A GROWING OFFICE

The client was looking to relocate to a larger office space due to company growth. They were in need of a partner who could help maximize and modernize their new space

Because the client is a government-owned company, they were working within strict budget constraints.

During the design process we held workshops to better understand budgets and their goals.

## REDESIGN.

Focus Studio assisted in the entire redesign of the 2nd floor office - including space design as well as furniture layout and configuration - delivering a sense of contemporary sophistication to the space. It also consisted of new rooms for the company's employees and clients to feel welcome.

We worked attentively to achieve maximum impact within the allotted budget while working closely with the client to ensure all elements of the design worked cohesively with their daily operations.

## TRANSFORMED..

Our design offered a fully transformed office that adhered to our clients goals as well as their strict budgetary needs.

We provided 3D renderings of the newly designed space and a furniture presentation containing applicable products, materials, and finish selections, as well as realistic renderings showcasing the final design.

An outdoor patio area with several tables and chairs. The chairs are made of a copper-colored metal mesh with a brown seat. The tables are light green. The patio is on a concrete deck with a white railing. In the background, there is a building with large glass windows and a white pillar. The scene is brightly lit, suggesting a sunny day.
