

A modern office interior featuring a large white wall with the 'metallix' logo in dark purple. The logo has a small orange dot above the 'i'. In the foreground, there is a long white conference table with several grey upholstered chairs. To the left, there is a glass partition with an orange armchair and two potted plants in dark grey pots. A white semi-transparent box is overlaid on the bottom left of the image.

## METALLIX CASE STUDY

**FS** FOCUS  
STUDIO

## ENVISIONED.

The client wanted their headquarters to be the first of their offices to undergo a remodel.

This remodel would be one that not only upgraded the overall aesthetic to match their new brand guidelines but worked to maximize the space for continual company growth

## SHAPED.

Focus Studio assisted in the entire redesign of the existing 2nd floor office to create a more modern look that aligned with the company's rebranded image and color palette.

Since their headquarters was the first of many offices to require a redesign, we helped the client put together a design standard for all Metallix locations worldwide.

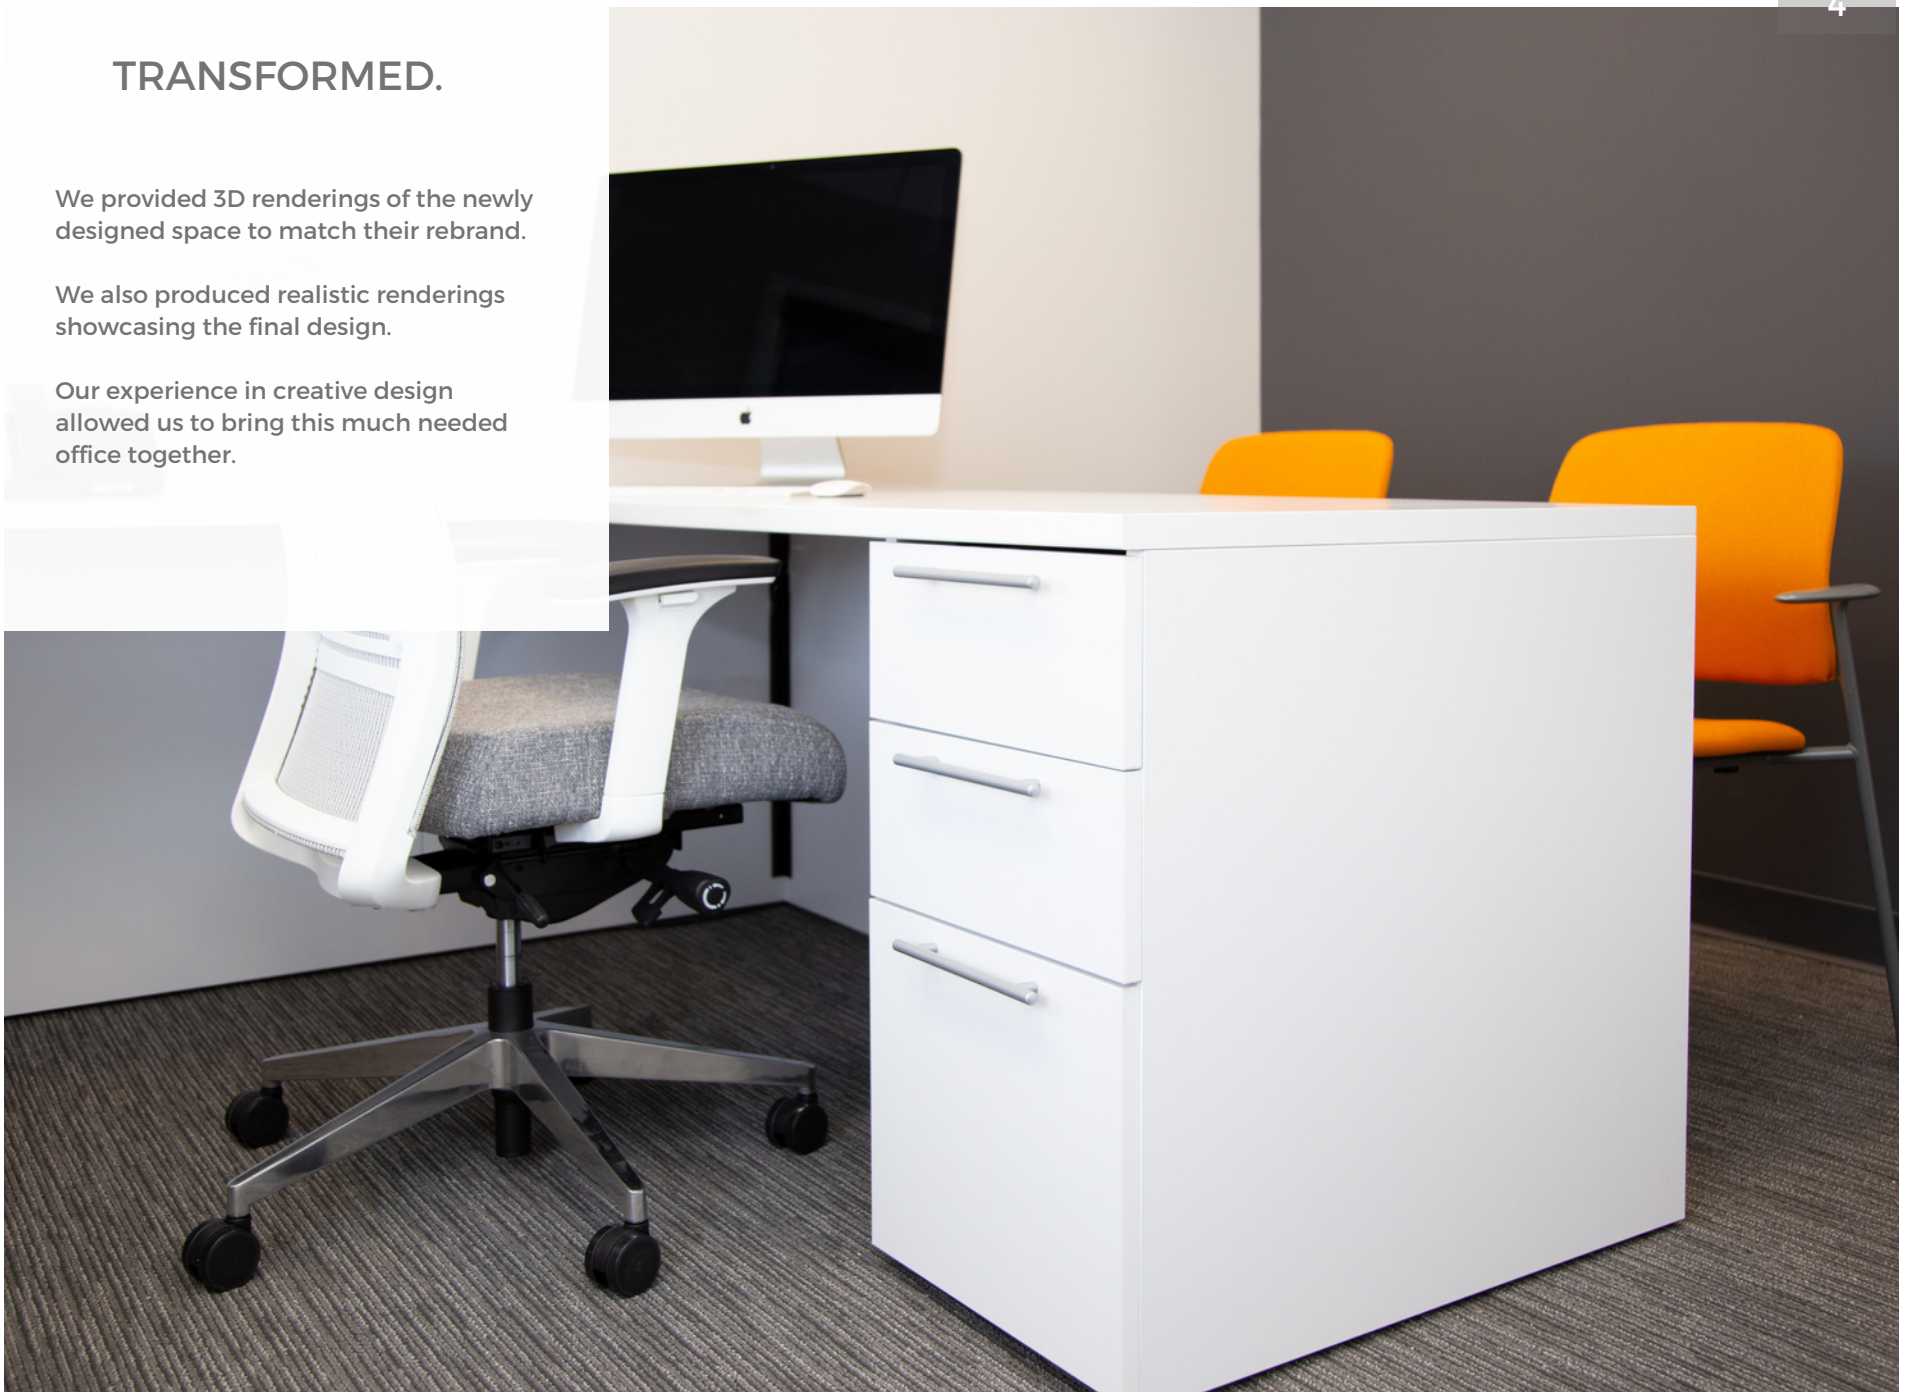

## TRANSFORMED.

We provided 3D renderings of the newly designed space to match their rebrand.

We also produced realistic renderings showcasing the final design.

Our experience in creative design allowed us to bring this much needed office together.
