

A modern office interior featuring large windows, wooden desks, and blue chairs. The room has a curved wall and a ceiling with exposed wooden beams and recessed lighting. A semi-circular desk is positioned against the wall, with a blue office chair and a computer monitor. In the foreground, there is a blue armchair and a small round table. The floor is made of light-colored wood. The overall atmosphere is bright and professional.

# TOA RE AMERICA CASE STUDY

## TRANSFORMING TRADITIONAL SPACES.

Our client ToaRe America, a reinsurance company was looking to transform their traditional CEO office into something more modernized.

They wanted their new workspace to prioritize the employee and client experience.

We held multiple design workshops with our client to develop an office that perfectly spoke to their needs.

## REDESIGN.

We redesigned the office space, working together with our client to create interior design concepts that foster the best environment for their company and industry.

We provided our client with 3D renderings that showcased the newly designed space, and a furniture presentation containing applicable products, functional materials, finish selections, and paint colors that coincide with their overall design goals.

## MODERNIZING INTERIORS.

This modern and updated design gave a fresh look to the space.

Our reconfiguration and modernization of the workspace resulted in more efficient use of the office space.

This open and bright CEO office transforms the traditional office architecture with its modern finishes.
