ONE INTEGRATED PROCESS

BENEFITS OF FOCUS STUDIO

Integrated Process for Enhanced Efficiency

- Achieve seamless project flow by unifying all project teams and phases, eliminating costly delays and maximizing team collaboration.

Progressive Budgeting

- Optimize budget utilization through progressive adjustments based on design milestones.

25% Faster Completion Rate

- Project delivery with proactive risk management and data-driven adjustments, resulting in a 25% faster project schedule.

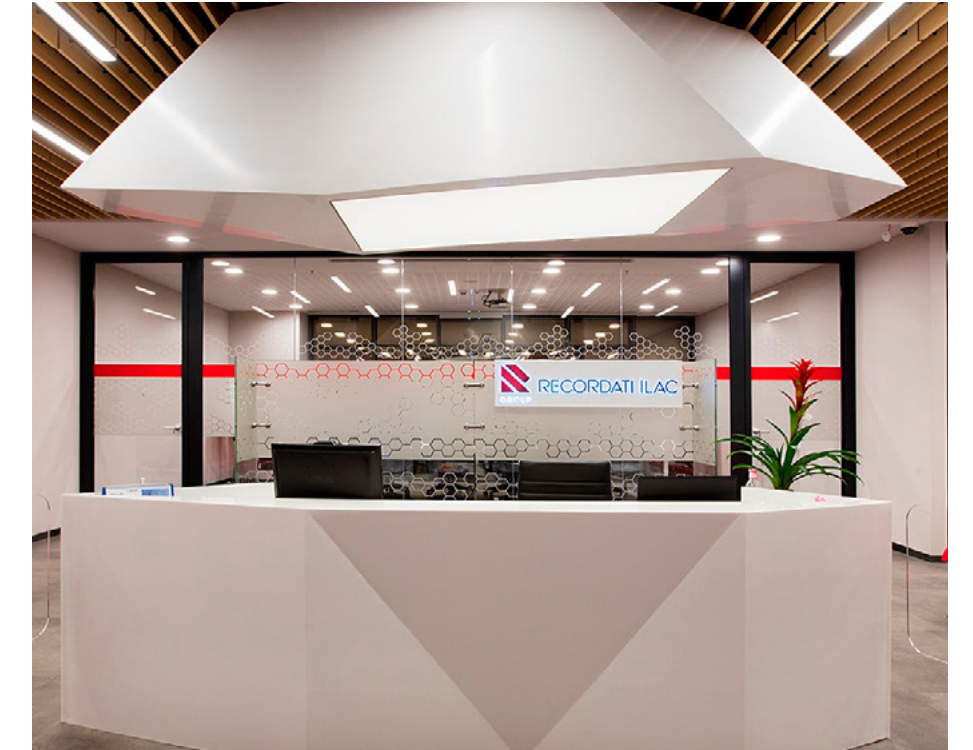

CONS OF THE TRADITIONAL METHOD

- Processes are not integrated leading to unclear expectations, and a higher risk of costly mistakes.
- No progressive budgeting will limit flexibility to adapt to changes and overall project execution.
- Project timelines become unpredictable leading to unexpected delays, higher spend, and overall project quality may suffer.
